Event Impact Assessment

Name of Event: _____ Date of Event: _____

The impact your event has on the residences and businesses in the area is an important consideration in planning your event and will be considered in the approval process.

The event organizer must consider the impact of the crowd, parking, and traffic on the area near the event when planning the event.

When appropriate, event organizers should inform and coordinate with local businesses that may be adversely impacted by the event. For very large events, bus transportation from an appropriate and approved parking facility may be appropriate.

Event organizers should take steps to prevent event attendees from utilizing private parking unless the use has been approved by the owners.

Steps include:

- Show the approved parking area in the event advertising.
- Using event staff to guide cars away from private parking that may be likely to be used by event attendees.
- Coordinating with the private lot owner is to utilize the private lot.

Impact Assessment:

Based on the expected event traffic we expect: (Check One Box)

1. Nearly all traffic will be accommodated by the parking available in the park.
2. A large number of event attendees will be parking on off park site, but sufficient public parking is available.
3. Traffic will far exceed the capacity of the park and nearby public parking. Additional planning is required.

List the steps your event will take to reduce the impact on nearby businesses and residences.

Note: A significant adverse impact on park neighbors may result in disapproval of the event at that site in future years.
