1. Completed Purchase Orders (PO) are required for all purchases representing a summary total of more than \$100, including applicable shipping and/or handling charges. An invoice can be substituted for a PO if the invoice is obtained at the time of purchase and the product or service is obtained within 3-4 business days. The same authorization levels apply;

3. Within one (1) working day of the Emergency Purchase, the initiating employee shall complete a PO and submit to the appropriate department head for approval.

2.04 –PRE-AUTHORIZED MONTHLY CHECKS- Some vendors may require that checks be written and mailed prior to Board approval in order to take advantage of discounts, avoid late payments and be in the best interest of the Park District. These would include, but are not limited to: Petty Cash, employee reimbursements, insurance, taxes, utilities, refund checks and vendors offering discounts. Journal Entries are to be logged in the District’s accounting system, either prepared on the District’s journal entry form by either the District’s bookkeeper or the Director of Business Services, reviewed by the other person who did not prepare the entry, and entered into the accounting system by the Administrative Assistant. Journal Entries may also be entered in the system directly, printed, reviewed by the District’s Accounting Systems Administrator or the Director of Business Services, and include proper authorization. Reoccurring monthly entries (Credit Card processing fees, interest, etc.) prepared by the Administrative Assistant shall be approved by the Director of Business Services. Journal entries exceeding **\$75,000** shall be approved by the Executive Director, except if the entry is a result of board action, as evidenced by an approved staff recommendation. Processed journal entries shall be maintained with the posted journal report from the accounting system along with supporting documentation for the transaction. If for any reason there is no supporting documentation, it shall be so noted on the entry form with an explanation.

For accounting purposes, the District shall use 5 years as the break point for carrying the liability of gift certificates. Certificates presented for payment after being written off shall be honored.

2.08 –PAYMENTS HANDLING PROCEDURES- All receipts are to be handled with care and due diligence. Those who handle payments are our main representative and are our billboard for customer relations. They are responsible for receipts, payout of money, and are responsible for maintaining good customer relations. All employees district wide are responsible for understanding and following all payment handling policies and procedures.

A copy of these procedures along with any site specific duties must be posted at each site. Procedures must be consistent at each site for ease of training Security of funds and personnel are highly important. These procedures need to be discussed in detail with every new employee of the District.

As a measure of security and dual control, all voids, reversals or refunds are to be initialed by the employee's immediate supervisor. There will be no exception to this rule! Supervisors shall explain all voids, reversals or refunds on the next business day's Daily Cash Report.

A register receipt must accompany every transaction and be given to the customer!

CHECK HANDLING PROCEDURES - Examine each check carefully before accepting it. If alterations or erasures are obvious, **DO NOT CASH THE CHECK!!** Have the customer void the check and issue a new one. Do not cash checks unless all writing on it is legible. Do not accept post-dated checks. Be extremely cautious of checks numbered **500** or less.

1. Require identification from everyone presenting an out of town check over a 25 mile radius of Quincy.
2. Identification used should contain a photo, so that you can match photo to the person.
3. Always compare the signature on the check to the signature on the identification presented.
4. Make sure each check you accept contains a current phone number and address.
5. If the check is already signed, have the person sign the check again, this will not make the check invalid, but will let you know that it is their check.
6. PUT YOUR INITIALS IN THE TOP LEFT HAND CORNER OF THE CHECK
7. Do NOT accept Blank Counter Checks without proper identification.
8. Do NOT cash third party checks.
9. Accept checks for the amount of the purchase **only**.

CASH HANDLING PROCEDURES – These procedures are designed to help you reduce errors and most importantly provide excellent customer service.

1. One person shall be assigned to each cash drawer as the operator and person responsible for that drawer. Each drawer shall be closed and balanced with each shift. An immediate supervisor can be allowed to operate the drawer on a limited basis to accommodate for breaks, etc.

2. Do not bunch sales; ring each one individually.

3. Keep your cash drawer closed when it is not in use. Do not turn your back or leave your drawer without closing it.

4. Handle cash transactions carefully and leave bills on the cash register until sale is concluded. Inspect the money, watching out for marked money. Bills must never be put in cash register until the employee has counted the change back to the customer and the customer is satisfied and left the counter.

5. Make change with the fewest pieces of money possible and count out loud starting with the coin to finish making

the dollar, then count out the paper currency to the amount given.

6. Do not allow people to change their purchases in the middle of you counting their change. Finish making the change to the initial transaction; handle any changes as a separate transaction. Do not change a large bill when you are attending to another customer, it is courteous to your initial customer and does not leave your drawer open to fraud.
7. Whenever you have collected large sums of money, count and band together extra money, then place money into bank bag in the facility safe.
8. All currency must be straightened and organized so that all bills face in the exact same direction prior to banding. Only bills of the same denomination should be band together. All change should be placed in rolls when change is enough to fill a roll.
9. **NEVER** count your drawer at front desk or with concession stand windows open. Count cash in the office or designated areas where patrons are not able to see.
10. Notify a supervisor immediately of any potential long/shortage problems you may have. Remember, if you are long, you have shorted a customer! Any overages or shortages must be initialed on the daily cash reports by an immediate supervisor. If discrepancies in cash continue, you may be required to make up any and all shortages and/or may have your employment terminated.

POS (CREDIT/DEBIT) CARD TRANSACTIONS – The Quincy Park District processes credit card transactions through a third party processor and does not at any time during the transaction store cardholder information. All third party/terminals automatically batch out at 11:00 p.m. each night.

1. Access to cardholder data will be limited to employees requiring such information to complete assigned tasks.
2. Take card from card holder, if the back of the ID says “See Photo ID” ask for photo identification, then swipe the card & keep in your possession until the transactions is completed.

WHEREAS, the attached Investment Policy complies with the law of the State of Illinois and, *in* addition, provides certain safeguards for the tax monies and other monies and revenues of the Quincy Park District.

NOW, THEREFORE, BE IT ORDAINED by the Quincy Park District that the attached Investment Policy is approved and adopted as the Investment Policy of the Quincy Park District;

BE IT FURTHER ORDAINED that all ordinances and resolutions and parts thereof in conflict herewith are to the extent of such conflict, hereby repealed.

BE IT FURTHER ORDAINED that this ordinance shall be *in* force and affect from and after its passage and approval.

SECTION I – GENERAL INTRODUCTION

The investment of public monies is a major responsibility of every public governmental entity. These responsibilities have become more complex due to the deregulation of the banking industry and the continuous emergence of diversified investment vehicles and opportunities. The Quincy Park administers an annual budget and appropriation ordinance representing several million dollars. Funds include appropriations for the General Fund, Special Revenue Funds, Debt Service Funds, Enterprise Funds, Internal Service Funds, and Trust and Agency Funds.

Material/ relevant, and decision-useful sustainability factors have been or are regularly considered by the agency, within the bounds of financial and fiduciary prudence, in evaluating investment decisions. Such factors include, but are not limited to: (i) corporate governance and leadership factors; (ii) environmental factors; (iii) social capital factors; (iv) human capital factors; and (v) business model and innovation factors, as provided under the Illinois Sustainable Investing Act (30 ILCS 235/2.5).

A sound investment policy requires a conscious, formal effort by officials to develop, implement and closely monitor the investment of public funds and to develop an investment policy which is consistent and applicable with governmental entities in the State of Illinois.

1. INVESTMENT PHILOSOPHY / STRATEGY -

Monies collected, appropriated, invested and expended by the Quincy Park District are public funds and therefore must be managed with prudent fiscal policies within the full meaning of public trust. It is incumbent on the Park District to consistently adhere to the following meaningful, yet simplistic investment philosophy and strategies:

1. Know what investments are being purchased. Investments should not include complex or exotic financial products, which can be imprudently used and managed.
2. Develop adequate controls and oversight.
3. Responsibility for Park District investment activity should never rest solely with one person. An investment reporting and review process should be established.
4. Make certain that all investments are collateralized. The Park District shall consistently maintain a conservative investment policy, which will result 100% protection of principal funds invested.
5. Diversify investments when advantageous. Due to market fluctuations, investment only in a single type of security would promote a "tunnel vision" mentality, which would not allow for seeking the highest collateralized investment return.
6. Match investment maturities and cash-flow requirements. Portfolio investments should be structured around anticipated cash-flow requirements.
7. The Park District may consolidate cash balances from all funds to maximize investment earnings.

2. INVESTMENT POLICY OBJECTIVES –

1. Safety of principal. Each investment transaction shall seek to ensure, without exception, that capital losses are fully avoided, whether they are from securities defaults or erosion of market value;
2. Liquidity. The investment portfolio is to remain sufficiently flexible in cash flow to enable the Quincy Park District to meet all operating requirements, which may be reasonably anticipated in any fund.
3. Maximum rate of return. The investment portfolio should be designed with the purpose of regularly matching the average return of 90-day United States Treasury Bills. The investment program should seek to augment returns above this threshold, consistent with risk limitations identified herein and prudent conservative investment principles matching the average return of 90-day United States Treasury Bills.
4. Public Trust. In managing an investment portfolio, officials should avoid any transaction that might impair public confidence in the Park District. Investments should be made with precision and care, considering the safety of the capital as well as the probable income to be derived.
5. Local Considerations. When practical, and in the best financial interests of the Park District, the investment portfolio should reflect investments through local financial institutions. It is the intent of the Board of Commissioners to invest in local financial institutions when the local bid is within the current prescribed differential of 50 basis points. **A basis point** is a value equaling one one-hundredth of a percent (1/100 of 1%). Each percentage point of yield equals 100 basis points.

SECTION II - COLLATERALIZATION

Collateralization is required whenever deposits in financial institutions exceed the insured limits of the BIF or the SAIF of the FDIC, and to meet the objective of preserving capital. In addition, the Governmental Accounting Standards

Board (GASB) requires that governmental units' financial statements include note disclosures on uninsured or uncollateralized deposits.

Instruments of Collateralization are provided by a variety of securities. The following types of securities are accepted by the State Treasurer for collateralizing State of Illinois monies and are acceptable to the Quincy Park District:

1. United States Government Securities;
2. Obligations of Federal Agencies;
3. Obligations of Federal Instrumentalities;
4. General obligation bonds of Illinois Municipalities rated "A" or better.
5. Mortgage-backed securities are not acceptable as collateral. The amount of collateral provided shall be not less than 100 percent of the fair market value of the net amount of public funds secured; however, as a hedge against market fluctuation, a greater amount of collateral for public funds may be considered.
6. The ratio of fair market value of collateral to the amount of funds secured shall be reviewed at least quarterly and additional collateral requested when the ratio declines below the required level.
7. Pledged collateral shall be held by the Quincy Park District or in safekeeping and verified by a collateralization agreement.
8. If collateral is held in safekeeping, it may be held by a third party or by an escrow agency of the pledging institution. If held by a third party, the designee shall receive prior approval of the Park District;
9. If investment collateralization is necessary, a fully executed Park District Collateralization Agreement will be required;
10. Collateral agreements shall preclude the release of pledged assets without an authorized signature of the Executive Director of the Park District and only if the release of collateral is in exchange for collateral of like value.
11. The length of maturity of securities pledged should somewhat mirror the maturities of the investments/deposits that are being collateralized. If the average investment/deposit is less than 180 days, the securities pledged should have a maturity of 1 year or less.

SECTION III - AUTHORIZED INVESTMENT INSTRUMENTS

The Quincy Park District maintains that the public and its employees are their most important assets. Therefore, public and employee safety is our greatest responsibility. Department heads and supervisory personnel at all levels of the Park District work force are directed to make safety a matter of continuing concern, equal in importance with all other operational considerations. This program is established to emphasize that effective loss prevention is an integral part of management procedures designed to fully utilize the Park District's capital and personnel.

1. All employees are expected, as a condition of employment, to adopt the concept that the safe way to perform a task is the most efficient and the only acceptable way to perform it. Safety adherence and performance will be considered an important measure of supervisory and employee evaluations at the Park District. Non-compliance with safety policy is considered very serious and could lead to suspension without pay or dismissal.

- a) a physical or mental impairment that substantially limits one or more life activities.

- b) a record of such impairment
- c) being regarded as having such an impairment

The non-discriminative provisions of the ADA refer to all employment-related decisions, including recruitment, hiring, compensation, job assistance, benefits, training, and the Park District will attempt to provide reasonable accommodations including: job restructuring, modified work schedules, reassignment to a vacant position, acquisition or modification of equipment or devices and the provision of readers or interpreters. The intent of the law is that accommodations do not impose an "undue hardship" on the employer.

3.06 -ENFORCEMENT OF PARK DISTRICT ORDINANCES- Park District employees and those designated under The Park District Code are not to be police officers. If an employee observes a Park user breaking a Park ordinance, policy or procedure, the employee should proceed as follows:

3.07 -ENVIRONMENTAL STRATEGIC STATEMENT- The public and the Park District are increasingly concerned about environmental issues facing our entire community. It is our intent to have the Park District be a role model and assume a partnership role in developing and implementing programs that demonstrate and teach the value and vitality of sound environmental policies, practices and procedures.

3.08 -ENVIRONMENTAL PRINCIPLES- The following are general principles for developing sound environmental policies, practices and procedures. The Park District will use these principles to guide our thinking as the District develops environmental action plans for the future:

1. Reduce wastes
2. Recycle materials and practice safe waste disposal.
3. Conserve energy sources.
4. Actively promote public education of environmental issues.
5. Minimize or eliminate pollutants.
6. Restrict the use of pesticides and herbicides
7. Expansion of environmental programs to children and families by implementing active outreach through the Park District.
8. Utilization of recycled products.
9. Enhancement of public education of developing product-recycling demonstrations.
10. Development of Comprehensive tree replacement programs.
11. Installation of recycling receptacles in Parks.
12. Serve as a resource to disseminate environmental information to the public.

13. To preserve established wetland areas.

Opportunities to be considered:

- Staff review should include proposed development. Expected maintenance issues, expected liability issues, and neighboring property review.
- The minimum size of a neighborhood park should be three acres.
- When at all possible street frontage for neighborhood parks should be the entire length of the park on two sides:
 - to provide better visibility;
 - to allow on-street parking;
 - to discourage users from cutting through private property to get to the park;
 - to develop facilities away from adjacent residential property; and
 - to provide more usable space.
- Service area of each neighborhood park should be within approximately one-half mile pedestrian walking distance.
- Storm water control facilities should occupy no more than one-half of any neighborhood parks.
- Utilize other existing public land whenever possible for the acquisition and development of new neighborhood parties.
- The Quincy Park District will work with the city of Quincy to establish a land donation ordinance which requires ten acres per land per thousand population to be dedicated for park and recreation purposes.
- All gifts donated to the Quincy Park District representing a value of \$25,000 or more, must receive Board approval prior to their acceptance.

3.09 -EASEMENTS- It is not uncommon for the Quincy Park District to receive requests for easements. The following policies shall govern granting of easement requests. Proposed easements shall not interfere with existing or proposed development plans of the requested park. Easement requests should not place undue use restrictions on the park site during construction or after the ground is repaired and available for public use. Those granted an easement shall be expected to fully restore at their expense all landscaped items such as trees, shrubs, sod, flowers, etc. to their original condition or better as determined by the Park District. The Park District would require that when an easement request is submitted, that the following be attached:

- a) survey of property in question
- b) engineer's certified legal description
- c) description of the easement
- d) easement drawn on the survey so that both the attorney and the park board know exactly where the easement is.

The District receives many requests for proposed easements. Many of these could be broken down into temporary easements and permanent easements:

a) Temporary easements may be defined as those submitted from a homeowner, private contractor, utility company or governmental body wishing access for construction of improvements to another's property. The decision on granting said request will be at the discretion of the administrative staff. A security deposit may be required in addition to a written statement from the person making the request stating that all damages to park property will be fully paid by said owner.

b) Permanent easements may be requested of the Park Board at a regular scheduled monthly meeting.

3.10 -FENCING OF PARK SITES- As development/improvements of park sites occurs, the Board of Commissioners shall make determinations on the placement of perimeter barrier fencing when necessary. If an adjoining property owner requests that a fence be installed, the Board may elect to install a fence under the following conditions:

- a) If it is felt that the fence will serve as a benefit primarily to park users, the Park Board will consider allowing a fence to be built to the District's specifications and the Park District will pay from 50 - 100% the cost.
- b) If the fence is felt to serve as a benefit only to the property owner, the Park District will consider such a fence as long as it conforms to the Park District's specifications and that owner pays 100% of the cost. The Park District feels that all park sites should be as open as possible. Requests for permanent fencing of ball diamond outfields will be considered on a case-by-case basis.
- c) Special requests for temporary fencing will be considered. Special request for temporary fencing at other locations will be considered upon a per request basis.

3.11 -LOAN OF EQUIPMENT- The practice of borrowing and loaning of publicly owned equipment is common amongst local municipalities. It is felt the major reasons for borrowing and loaning of equipment are whenever possible governmental agencies should consolidate equipment. This joint use allows for greater savings of the tax dollar to the general public.

Specialized pieces of equipment, which are costly items, and used somewhat infrequently, will not be loaned out. Equipment breakdowns or periodic emergency situations do arise when additional equipment is necessary and it is with these items in mind that the policy of the Quincy Park District shall be that when determined necessary by the administrative staff, the district may engage in both loaning and/or borrowing of equipment. Administrative staff is also empowered to establish a fair rental on specialized pieces of equipment. It is also understood that the Park District may loan equipment to other governmental agencies with the expectation of not charging the requested agency, which in turn will reciprocate at a later date. Loaning of equipment to private individuals or organizations is not permitted unless special approval is authorized by the Park Board.

3.12 -COMPLAINTS- Residents of the Quincy Park District and users of its facilities and recreation programs may from time to time find situations, which are not to their liking. When these situations are brought to the attention of the Park District staff, either by phone, written correspondence or face-to-face, the District staff will respond to their concern, as it is the responsibility of the Park District employees to work toward minimizing the number of valid complaints by improving the services of the Park District. Complaints should be received and acknowledged with a positive attitude. Subsequently, the complaint information shall be directed to the Executive Director. The appropriate Director will follow up on all inquiries, complaints, etc., with the resident, letting them know that their concern is being addressed. Final results will be communicated to the resident in a timely fashion.

3.13 -BOARD PACKET- In order for the Park District to function properly, the Board of Park Commissioners must be kept abreast of all that is happening within the Park District. The Board is kept informed on a day-to-day basis and as the need arises. Formal action is taken at the Board Meeting held usually once a month (second Wednesday of the month except January, which is the third Wednesday).

In addition, reports informing the Board of all pending matters and the financial conditions of the District are also presented. Recommendations are made by staff with the final decision being made by the Board of Park Commissioners. The Board is the governing body of the Park District and the community and staff relies on the Board's decisions to make it operate at its peak.

Board packets, which are prepared by office personnel, take precedent over all other duties. All material must be given to the Executive Director five days prior to packet delivery. Any material received subsequent to the five days deadline will be completed at the discretion of the Executive Director. The board packet, including reports and financial statements, are posted by the Director of Business Services or his designee, the Friday preceding the meeting.

3.14 -PHONE CALLS- The Park District is evaluated by the initial contact made by the public. It is important that the first person, normally the receptionist, is congenial and enthusiastic. It is a reflection on the type of service they will receive.

When answering any calls at the Park District, the person should identify the Park District and his/her name. Questions should be answered or the call disseminated to the proper person. The name of the caller will be asked in order for the employee to locate needed information, and prepare for the call.

3.15 -OFFICE REGISTRATIONS FOR PROGRAMS- All registration of programs take place at the administrative office/ business office or online. The registration form is filled out by the participant and given to the receptionist along with a check, Credit/Debit Card, or cash covering the cost of the program. The receptionist enters the registration into the computer and verifies that the proper amount of money is received for the program desired. The backs of all checks are to be endorsed by Quincy Park District stamp. The computer will generate a receipt, which includes all pertinent information needed for the participant. Each day, the receptionist ties out cash, Credit/Debit Card and checks received. All registration forms are disbursed to the Bookkeeping Department, where verification takes place. The Bookkeeping Department matches computer deposit forms with monies for authenticity. Deposit tickets are created from computer registration forms. Adjustments are made for balancing purposes at this time (staff, refunds, scholarships, Visa/MasterCard, etc.) Checks are stamped. Checks and cash are calculated and recorded on the deposit ticket. The Director of Business Services takes necessary deposits to the financial institution.

3.16 -USE OF OFFICE MACHINES- The use of office machines (copy machine, postage meter, laminator, and calculators) may be used with department head approval and when it does not interfere with normal business office operations. The business office will handle all regular or corrective maintenance. Personal business will not be conducted on Park District equipment without Department Head approval. When staff is assigned a particular computer, other Park District employees without prior approval may not utilize it. Any personal use of computers is prohibited unless department head gives authorization.

3.17 -FREEDOM OF INFORMATION- Any person requesting records of the Quincy Park District may make such a request in writing either in person or by mail, at the business office located at 1231 Bonansinga Dr., Quincy, Illinois. Such request should be made to the FOIA Officer of the Assistant FOIA Officer at the same address and if he/she is not present in person, you should see the Executive Director. 3.22 –CRISIS MANAGEMENT EMERGENCY ACTION PROCEDURES PLAN - It is a prime objective of the Quincy Park District to provide programs and facilities for public use in the safest possible manner. No operation or facility is immune from emergencies and the Quincy Park District recognizes its responsibility for the safety of its employees and patrons during such a time. All action taken and decisions made will be with the intention of providing maximum protection, considering the situation and alternatives. This policy statement has been developed for public safety.

This policy statement is in no way intended to be an acceptance of any liability of personal injury during an emergency, unless specified in other contractual agreements.

In providing such a plan, the Quincy Park District reaffirms its commitment to provide as safe an atmosphere as possible for all employees and patrons using the park district facilities and programs. This plan shall be reviewed annually by the District's staff.

All Quincy Park District employees will familiarize themselves with this plan and their role in an emergency.

3.23–SOCIAL MEDIA POLICY- The Quincy Park District (QPD) understands that social media can be a fun and rewarding way to share your life and opinions with family, friends and co-workers around the world. However, use of social media also presents certain risks and carries with it certain responsibilities. To assist you in making responsible decisions about your use of social media, we have established these guidelines for appropriate use of social media. These guidelines apply to all associates who work for the Quincy Park District. Managers and supervisors should use the Personnel Manual for additional guidance in administering the guidelines.

In the rapidly expanding world of electronic communication, social media can mean many things. Social media includes all means of communicating or posting information or content of any sort on the Internet, including to your own or someone else’s web log or blog, journal or diary, personal web site, social networking or affinity web site, web bulletin board or a chat room, whether or not associated or affiliated with QPD, as well as any other form of electronic communication. The same principles and guidelines found in QPD policies and three basic beliefs apply to your activities online. Ultimately, you are solely responsible for what you post online. Before creating online content, consider some of the risks and rewards that are involved. Keep in mind that any of your conduct that adversely affects your job performance, the performance of fellow associates or otherwise adversely affects members, customers, suppliers, people who work on behalf of QPD or QPD’s legitimate business interests may result in disciplinary action up to and including termination.

Carefully read these guidelines. Inappropriate postings that may include discriminatory remarks, harassment, and threats of violence or similar inappropriate or unlawful conduct will not be tolerated and may subject you to disciplinary action up to and including termination.

Always be fair and courteous to fellow employees, customers, members, suppliers or people who work on behalf of QPD. Also, keep in mind that you are more likely to resolve work-related complaints by speaking directly with your co-workers or by utilizing our Open Door Policy than by posting complaints to a social media outlet. Nevertheless, if you decide to post complaints or criticism, avoid using statements, photographs, video or audio that reasonably could be viewed as malicious, obscene, threatening or intimidating, that disparage customers, members, associates or suppliers, or that might constitute harassment or bullying. Examples of such conduct might include offensive posts meant to intentionally harm someone’s reputation or posts that could contribute to a hostile work environment on the basis of race, sex, disability, religion or any other status protected by law or company policy.

Make sure you are always honest and accurate when posting information or news, and if you make a mistake, correct it quickly. Be open about any previous posts you have altered. Remember that the Internet archives almost everything; therefore, even deleted postings can be searched. Never post any information or rumors that you know to be false about QPD, fellow employees, members, customers, suppliers, people working on behalf of QPD or competitors.

Post only appropriate and respectful content

- Maintain the confidentiality of QPD trade secrets and private or confidential information. Trades secrets may include information regarding the development of systems, processes, products, know-how and technology. Do not post internal reports, policies, procedures or other internal business-related confidential communications.
- Respect financial disclosure laws. It is illegal to communicate or give a “tip” on inside information to others so

that they may buy or sell stocks or securities. Such online conduct may also violate the Insider Trading Policy.

- Do not create a link from your blog, website or other social networking site to a QPD website without identifying yourself as a QPD employee.
- Express only your personal opinions. Never represent yourself as a spokesperson for QPD. If QPD is a subject of the content you are creating, be clear and open about the fact that you are an employee and make it clear that your views do not represent those of QPD, fellow employees, members, customers, suppliers or people working on behalf of QPD. If you do publish a blog or post online related to the work you do or subjects associated with QPD, make it clear that you are not speaking on behalf of QPD. It is best to include a disclaimer such as “The postings on this site are my own and do not necessarily reflect the views of the Quincy Park District.”

Refrain from using social media while on work time or on equipment we provide, unless it is work-related as authorized by your manager or consistent with the Company Equipment Policy. Do not use QPD email addresses to register on social networks, blogs or other online tools utilized for personal use.

The Quincy Park District prohibits taking negative action against any employee for reporting a possible deviation from this policy or for cooperating in an investigation. Any employee who retaliates against another employee for reporting a possible deviation from this policy or for cooperating in an investigation will be subject to disciplinary action, up to and including termination.

Employees should not speak to the media on QPD’s behalf without contacting their immediate supervisor. All media inquiries should be directed to them.

3.24–SECURITY CAMERA & VIDEO SURVEILLANCE POLICY- The Quincy Park District must offer welcoming, comfortable and safe environment where people can use the parks, facilities and programs for intended purposes to the maximum extent possible.

Security Cameras/ video surveillance systems are used where needed to provide peace of mind to the District users and staff by discouraging violations of the Park District Code, to assist staff in preventing the occurrence of any violations, and when necessary, to provide law enforcement assistance with security breaches and prosecuting criminal activity.

The purpose of this policy is to establish guidelines for the placement and use of video security cameras, as well as the access and retrieval of recorded video images at the Quincy Park District.

- Video surveillance must be conducted in accordance with the laws of the State of Illinois.
- Video Surveillance Cameras are installed at the District’s facilities on an as needed basis. The Park Safety Supervisor, Directors and the Executive Director will all give input as needed to determine where cameras should be placed.
- Signs will be posted at the facilities entrances informing the public that security cameras are in use.
- Access to the footage in pursuit of documented incidents of criminal activity or violation of the Park District Code is restricted to designated staff as listed above.
- Production of video copies for distribution is limited to the designated Administration Staff.
- Access will also be allowed by police when pursuant to a subpoena, court order or when otherwise requested by law enforcement to assist with the duties of their jobs.

4.12 -POLICY ON YOUTH ATHLETIC LEAGUES AND COACHING GUIDELINES- The Quincy Park District is strongly committed to conducting organized youth sports. This is a very important part of the Park District program. The following guidelines and policies have been developed in order to keep the recreational interests of the children in mind at all times. Youth athletic leagues should be conducted and organized so they all have similar philosophies and goals. The Park District realizes that young athletes have the right to participate in organized and enjoyable sports with competent qualified leadership in a safe environment. Specific guidelines are as follows:

1. All youth sports leagues will attempt to de-emphasize competition and stress enjoyment, including the District's competitive leagues. It is realized that competition is a part of any organized athletic league. It is not the intent of the Park District to neither suppress nor exaggerate competition. Competition is learning to meet the challenge that is before an athlete trying to obtain their individual goals. It shall be the goal of the Park District to educate all athletes on how to compete properly and how to utilize good sportsmanship in all situations.

2. All Park District youth sport leagues will attempt to develop the skills of the youngster to their maximum potential. The coaching staff will give the young athlete instructions in developing their talents.
3. It is recognized by the Park District that the coaches are a vital factor in managing successful sports leagues. It is therefore important that the coaches have specific guidelines and philosophies that are set forth by the Park District. The Park District will recruit volunteers for those programs and assist in developing their coaching skills.
4. Coach training is designed to help the Park District coaches become aware of safety factors in youth sports, to understand basic psychology with youth in sports, to learn the techniques of the game and to organize a fun practice. Coaches may participate in ACEP (American Coaches Effectiveness Program) training.
5. The Coaches role is to set a tone for their players, which are success oriented. Winning or losing is not the standard measurement for the success of a learner. A coach will be evaluated on his/her effectiveness in dealing with each participant and their ability to improve their skills and making the sport as enjoyable as possible. The coach should possess leadership skills and handle their selves in a manner, which commands respect. Coaches should set an example of good sportsmanship to all players. Above all, the coach should maintain a positive approach to managing the team. This approach motivates players to perform in a desirable manner. The idea is to make all players feel as though they are winners.
6. Coaches should be able to interact with league officials, parents, and spectators in a friendly fashion.
7. Physical fitness and conditioning should be an ongoing goal of all youth sports.

4.13 -FINANCIAL LIABILITY OF ACCIDENTS- The Quincy Park District does not assume any financial liability for accidents that occur while a person is using or is enrolled in park programs or facilities.

STAFF RECOMMENDATION

AGENDA ITEM: MADISON PARK BANDSTAND DESIGN AND ENGINEERING: RECOMMENDED APPROVAL

BACKGROUND INFORMATION: The Madison Park bandstand was identified as a project on the 2025 bond list. Due to the age and condition of the Showmobile a permanent structure will be built to suit the needs of the community.

FISCAL IMPACT: The \$29,750 needed would come from the 2025 G.O. Bond Funds. An additional \$170,250 for the project is included on the 2025 Bond and the remaining funds will be raised by the Quincy Park Band.

STAFF RECOMMENDATION: Staff recommends using \$29,750 from the 2025 G.O. Bond Fund for the design and engineering work for the Madison Park Bandstand.

Board of Commissioners

Date of Board Meeting: February 12, 2025

STAFF RECOMMENDATION

AGENDA ITEM: APPLICATION FOR LOCAL LANDMARK DESIGNATION OF THE QUINCY ART CENTER BY THE PRESERVATION COMMITTEE: RECOMMENDED APPROVAL

BACKGROUND INFORMATION: Staff has been approached by the Preservation Committee to ask for permission to apply for local landmark status for the Quincy Art Center. Local landmark status creates a unique ordinance naming specific architectural significance of the building, allows volunteers to market the building for future fundraising efforts, and gives volunteers the ability to add future programming. This would be very similar to the Villa Kathrine and the Lorenzo Bull House.

The Quincy Art Center is located at 1515 Jersey Street. Built in 1923, the Quincy Art Center is housed in the former carriage house of the Lorenzo Bull property. The Quincy Art Center came to fruition when a group of local women created the Quincy Art Club, which proposed “to foster the aesthetic needs of Quincy and develop among her citizens an appreciation of Art in its broad and universal sense as applied to life.”

Any future improvements to the Quincy Art Center that would involve protected features would be reviewed and awarded a Certificate of Appropriateness by the Quincy Preservation Commission. The Quincy Art Center aspires to maintain the current architectural look of the building’s past. The Park District would need approval from the group if demolition of the building would occur in the future or any significant modifications are made to the existing building.

FISCAL IMPACT: None.

STAFF RECOMMENDATION: Staff recommends the Board approve the application for the Quincy Art Center to become a local landmark by the Preservation Committee.
